### Entergy Louisiana donates in support of mental health services

*Pictured: Julio Galan, President & CEO of Family & Youth*

**(Lake Charles)**— Family Foundation of Southwest Louisiana (Family Foundation) was presented with a \$12,000 donation from Entergy Louisiana in support of mental health services for displaced workers and front-line healthcare workers.

Entergy Louisiana's contribution will be utilized to initiate counseling, wellness checks, and case management services for displaced workers and front-line health care workers and their families, in our communities. While everyone in the United States has been affected in some capacity by the current crisis, none have been more affected than displaced workers and health care workers.

With the most recent unemployment count at 6.6 million the number of individuals suffering sudden instability is alarming. The availability of mental health and case management services to help them cope with their new reality and access the resources necessary to navigate the system to find stability again is critical to their psychological healing process, and that of their families.

Family Foundation of Southwest Louisiana serves as the endowment arm of Family & Youth, connecting donors to the priorities that enhance the quality of family and community life for generations to come. Investing in families secures the future of our community. For more information call 337-436-9533 or log on to [www.fyca.org](http://www.fyca.org).
